

# LHB19 Soltii

NSF & IP69K Linear Fixture for Food Processing Applications

LHB19 Soltii is a powerful and compact luminaire designed for the food industry and NSF certification. The housing provides IP69K Ingress Protection (1450 PSI) along with extreme chemical resistance. It is specifically designed for heavy hose-down applications or daily sanitation. With its strong construction and reliable performance, LHB19 Soltii is the perfect solution for ensuring the safety and hygiene of your food processing facility.

## Features:

- IP69K rating, offering protection against water pressure up to 100 bar (1450 psi) and temperatures of up to 85°C.

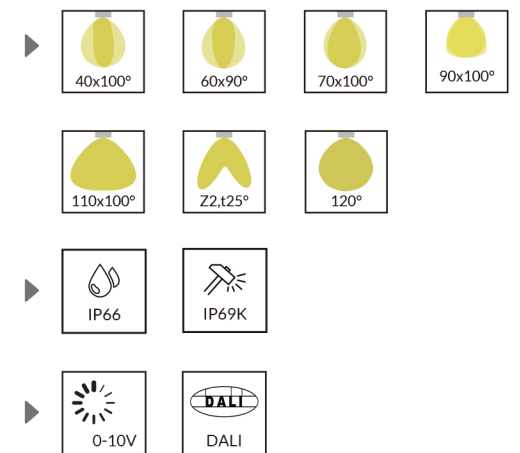

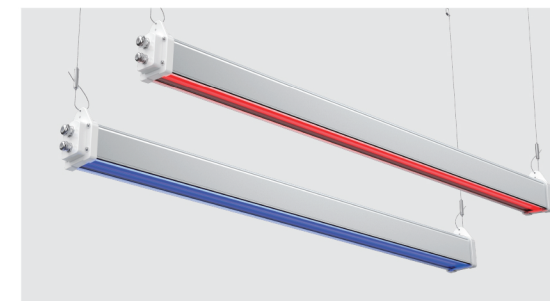

- Certified by NSF and HACCP for food safety and hygiene standards.

- Smooth surface and PMMA lens, making it dust-proof and more security.

- Red, blue sources available for animal.
